

Stephanie Hicks

Addressing Open Challenges in Genomics and Data Science Education

Stephanie Hicks, Ph.D., is an assistant professor in the Department of Biostatistics at Johns Hopkins Bloomberg School of Public Health, a faculty member of the Johns Hopkins Data Science Lab and co-founder of R-Ladies Baltimore. Her research addresses statistical challenges in epigenomics, functional genomics and single-cell genomics such as the pre-processing, normalization and analysis of noisy high-throughput data.

Sponsored by the Statistical and Data Sciences Program and the Smith College Lecture Committee.

Thursday, April 18 · 6 p.m.
Seelye Hall, Room 106

Free, open to the public and wheelchair accessible. For disability access information or accommodations requests, please call 413-585-2407. To request a sign language interpreter, call 413-585-2071 (voice or TTY) or send email to ods@smith.edu at least 10 days before the event.
